

COME LOOK IN THE POMPERAUG RIVER FOR SMALL, FUNNY-LOOKING CRITTERS

Annual Macroinvertebrate Survey

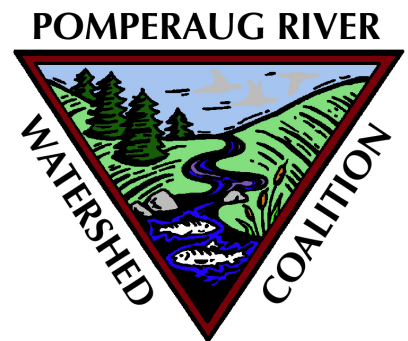

Saturday September 17 from 9:00 to 2:00 PM

Woodbury Emergency Services Building, 238 Quassuk Road

We'll will teach you about the small creatures in our river (mostly larvae of certain exotic insects...) and why having them there indicates excellent water quality. We'll then go out into the river and see how many of these critters we can actually find and report our results to the CT Department of Environmental Protection.

Dress for wading and children must be over 12 and have an adult with them.

Join in the fun! Please pre-register by calling the Coalition at 203-267-1700 or emailing us at events@pomperaug.org. For more info, visit www.pomperaug.org.
